

Conversations with The Kensington *10 Warning Signs of Dementia*

There's no question that memory loss is a family affair. Those living with it as well as those who love and care for them confront the continual need to adjust the way they relate and communicate. Finding ways to make this challenge more manageable is essential to improve the quality of life for all involved.

Join our very own Redondo Beach Memory Care Director, Lorrie Marino, for the second edition of Conversations with The Kensington. In this month's topic, '10 Warning Signs of Dementia', Lorrie will discuss the 10 Warning Signs and how to identify the difference between Mild Cognitive Impairment and Dementia.

Look forward to our next monthly Conversations with The Kensington Lecture in March with Kelley Koul, Director of Assisted Living.
